REGULATORY UPDATES**AMERICAS****US**

1. This is an update to US Export Controls. The Bureau of Industry and Security (BIS) is publishing this final rule to amend the Export Administration Regulations (EAR) to implement the 2008 Australia Group (AG) intersessional decisions, which were recommended at the Intersessional Implementation Meeting held at the Hague on October 8-9, 2008, and adopted under the AG intersessional silent approval procedures in December 2008. This final rule amends the EAR to reflect changes to the AG "Control List of Dual-Use Chemical Manufacturing Facilities and Equipment and Related Technology and Software" affecting valves and toxic gas monitoring systems. Finally, this rule amends the list of countries that currently are States Parties to the CWC by adding "Bahamas", "Dominican Republic", "Iraq" and "Lebanon" which recently became States Parties. However, because of the special EAR controls that apply to Iraq, items controlled under the EAR for CW reasons continue to require a license for export or reexport to Iraq, or for transfer within Iraq. The following ECCN categories are affected: 01 and 02.
2. This is an update for United States Anti Dumping and Countervailing Duties. This update makes changes to many products across the tariff. The Import controls affected by this update are Anti Dumping and Countervailing duties.
